**Microsoft Photo Story 3 for Windows XP**

Create slideshows using your digital photos. With a single click, you can touch-up, crop, or rotate pictures. Add stunning special effects, soundtracks, and your own voice narration to your photo stories. Then, personalize them with titles and captions. Small file sizes make it easy to send your photo stories in an e-mail. Watch them on your TV, a computer, or a Windows Mobile-based portable device. This is a free program from Microsoft.

**Grilling Granny**

This covers the basics of getting started with your Family History. We will discuss how to interview family members and how to record the data. Other topics include discussion of Pedigree Charts, Family Group Sheets, Family History Software and Internet Genealogy.

**The Paperless Genealogist**

We will explore the technology available today and how it can help us record our family history. We will identify the best methods for preserving your history – and the conclusions may surprise you!

Rich has been tracking down his ancestors for over twenty years. Although his family did not arrive in the United States until 1865, they did arrive in North America as early as 1620, settling in Quebec. His ancestor lines reach back to Canada, England, Finland, France, Holland, Germany and parts of the United States. Rich has taught genealogy workshops throughout the North Texas area for the past ten years. He is currently serving as the Assistant Family History Director for the Carrollton Texas Family History Center.
